

Save the Date: Stem Cell Research Day May 9, 2023

Mark your calendars for the next Stem Cell Research Day on Tuesday, May 9, 2023, at 10am-2pm. The keynote speaker is David R. Liu, the Richard Merkin Professor and director of the Merkin Institute of Transformative Technologies in Healthcare, vice-chair of the faculty at the Broad Institute of MIT and Harvard, the Thomas Dudley Cabot Professor of the Natural Sciences at Harvard University, and a Howard Hughes Medical Institute (HHMI) investigator.

The program will include presentations by the authors of two outstanding abstracts chosen from those submitted by postdoctoral fellows and graduate students, and a poster session where the best three posters will win awards. More details about the abstract submission process will be provided mid-March.
